PRODUCT FEATURES

Recommended Daily Output: 200 cups
Certifications: CB/CE/CQC

Dual Bean & Grinding System

Two separate hoppers and grinders handle different coffee beans independently, ensuring professional extraction and high efficiency.

Cold/Hot Fresh Milk & Foam

Independent milk pump and foam generator deliver versatile hot/cold milk textures, expanding menu possibilities for premium beverages.

Expansive Beverage Selection

Freshly ground coffee and fresh milk combined with 2 instant powder canisters and 4 flavored syrup options, enable 30+ barista-grade hot and cold creations.

Dual Pumps, Dual Boilers

Dedicated pumps and boilers for coffee and steam enable simultaneous coffee brewing and milk frothing, boosting output speed and consistency.

Auto Milk System Cleaning

Upgraded self-cleaning with automatic tube closure prevents contamination—zero manual intervention.

SaaS Smart Management

Cloud-based remote monitoring and control minimize downtime while optimizing revenue streams through data-driven insights.
